PROFILE

Full-stack and React Native developer with experience on a UK real-estate CRM, client website rebuilds, and marketplace, booking, POS and SaaS applications. Works mainly in TypeScript across React, Next.js, React Native and the MERN stack. Open-source contributor on GitHub. Completing an MSc in Software Engineering at the University of Hertfordshire; seeking full-time UK engineering roles.

TECHNICAL SKILLS

Languages & Front end: TypeScript, JavaScript (ES6+), Java, Python, React, Next.js, React Native (Expo), HTML5, CSS3, Tailwind CSS, Framer Motion, Radix UI, MDX, Redux Toolkit, Zustand

Back end & Data: Node.js, Express, FastAPI, MongoDB, PostgreSQL, Firebase, Supabase, SQL, REST APIs, Socket.io, Zod / React Hook Form, JWT / Google auth, Stripe

Tools & Practice: Git/GitHub, Postman, Vercel, ESLint, SonarQube, Lighthouse, Agile/Scrum, Docker, Claude Code

EXPERIENCE

Full Stack Developer Intern | Nexcell Solution, UK (Remote)

Mar 2026 – Jul 2026

- Contributed to ConneX, a UK real-estate CRM, enhancing AI-assisted lead and property management workflows that drove a 40% increase in operational engagement.
- Built modular Property and Contact Management interfaces with Next.js and Tailwind CSS, and front-end components for AI-driven semantic search backed by vector database logic.

AI Engineer Intern | Purpose Tech.AI Solutions, USA (Remote)

Jan 2026 – Mar 2026

- Evaluated internal AI research initiatives, digital platforms and system architectures, and contributed technical solutions during sprint planning.

MERN Stack Developer Intern | Lean Automation Pvt. Ltd

3 months, 2025

- Worked across the full SDLC in a team of 4 engineers; wrote and maintained OpenAPI documentation for 6 core endpoints to speed up onboarding.

Full Stack Developer Virtual Intern | DevelopersHub Corporation

6 weeks, 2025

- Built full-stack mock modules in JavaScript and React, collaborating remotely with 6 peers on GitHub using version-control best practice.

Web Developer (Client Projects) | Digital Agency / Freelance

- Rebuilding the JFA Construction Group site from WordPress/Elementor to Next.js 16; currently working on Westwayride design improvement

PROJECTS & RESEARCH

- LocalLens** (Next.js, Stripe, Instagram Graph API) SaaS prototype that turns customers' tagged Instagram posts into a branded in-store display: custom auth, Stripe billing with verified webhooks, Instagram OAuth and tagged-post polling (19 API routes).
- NaanStaap Ordering App** (Expo, TypeScript, Express, MongoDB) Ordering app for a nine-store UK restaurant brand with loyalty tiers, referral codes, scheduled orders and reviews, backed by a 66-route API with JWT refresh tokens.
- EcoRentUK** (React, FastAPI, MongoDB) Property management SaaS for UK landlords: EPC sustainability score tracking, AI tenant chat and lead capture, JWT/Google sign-in and two-factor authentication.
- Anglian Self Storage website** (Next.js 16, React 19, Tailwind CSS 4, MDX) App Router marketing site with storage-unit, location, blog, FAQ and gallery pages and Zod-validated forms.
- Wheel Magic (Final Year Project)** (React Native, Node.js, Firebase, Stripe) Team-of-three marketplace for car and bike spare parts: store plus peer-to-peer listings, Stripe payments, in-app chat and reviews, 38-endpoint API and admin dashboard.
- Restaurant POS** (Next.js, Supabase) Dine-in, takeaway and delivery POS with kitchen display and sales analytics on a PostgreSQL schema with row-level security and triggers.
- Open-source contributions** (GitHub) Merged pull requests in three public repositories: activist-org/activist (screen-reader label fix), ansvisor/ansvisor (error-toast bug fix) and Agronavis AI Farm Assistant (dashboard empty states).
- MSc Dissertation** (2026) LLM-augmented static analysis for detecting performance anti-patterns in React/Next.js apps (unnecessary re-renders, N+1 fetch waterfalls, client-server data leaks), with ESLint and SonarQube baselines.
- Also built** – UniConnect (Socket.io); NHS Queue Navigator (Expo); AI E-Commerce (Rasa chatbot); Food Delivery backend (Docker); Ration Bridge; EasyPrompt; Offline Lab POS (Electron, SQLite); Tyger Inn; POS_PAK; Sneakers store app; Landlord Leaked (Expo).

EDUCATION

MSc Software Engineering | University of Hertfordshire, Hatfield

2025 – Nov 2026

BSc Software Engineering | COMSATS University Islamabad, Abbottabad

2021 – 2025

Certifications: Meta Front-End Development, IBM Intro to Software Engineering, LinkedIn Full-Stack JS, Packt MERN Stack (all 2025)
